I plan to propose a reform to the Student Senate rules such that in the event SCS does not nominate all 5 candidates to represent us, we still receive full representation in the Student Senate. Oftentimes, SCS does not get our full voting representation because not enough students in SCS opt to run for Student Senate.

This is my only campaign promise and the only agenda I will actively pursue. For all other matters except this, I will copy the vote of the SCS senator (excluding me) elected with the greatest number of votes.
